International Division**RESPONSE TO NOTIFICATION OF MISSING
REQUIREMENTS AND PETITION UNDER 37 C.F.R. § 1.47(a)**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This petition under the provisions of 37 C.F.R. §1.47(a) is submitted in response to the Notification of Missing Requirements Under 35 U.S.C. § 371 in the United States Designated/Elected Office (DO/EO/US) mailed on August 11, 2005.

The facts described below and attested to in the accompanying statements by Christine Davids and Valentino Villari show that named coinventor Albert van Oijen has refused to sign the inventors declaration and/or that he is unavailable to execute the declaration for the above-identified patent application.

NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371 IN THE UNITED STATES DESIGNATED/ELECTED OFFICE (DO/EO/US)

The following items have been submitted by the applicant or the IB to the United States Patent and Trademark Office as a Designated / Elected Office (37 CFR 1.495).

- Copy of the International Application filed on 03/10/2005
- English Translation of the IA filed on 03/10/2005
- Copy of the International Search Report filed on 03/10/2005
- Copy of IPE Report filed on 03/10/2005
- Preliminary Amendments filed on 03/10/2005
- Information Disclosure Statements filed on 03/10/2005
- Oath or Declaration filed on 03/10/2005
- Request for Immediate Examination filed on 03/10/2005
- U.S. Basic National Fees filed on 03/10/2005
- Priority Documents filed on 03/10/2005

Docketed: 10-11-05

The applicant needs to satisfy supplemental fees problems indicated below.

The following items **MUST** be furnished within the period set forth below in order to complete the requirements for acceptance under 35 U.S.C. 371:

- Oath or declaration of the inventors, in compliance with 37 CFR 1.497(a) and (b), identifying the application by the International application number and international filing date. The current oath or declaration does not comply with 37 CFR 1.497(a) and (b) in that it:
 - is not executed in accordance with either 37 CFR 1.66 or 37 CFR 1.68.
 - recived a 4.17 decleration fr the ib signed by one inventor Valentino Villari, 2ND inventor Albert Van Oijen didn't sign.
- To avoid abandonment, a surcharge (for late submission of filing fee, search fee, examination fee or oath or declaration) as set forth in 37 CFR 1.16(f) of \$130 for a non-small entity, must be submitted with the

missing items identified in this letter.

SUMMARY OF FEES DUE:

Total additional fees required for this application is **\$130** for a Large Entity:

- **\$130 Surcharge.**

ALL OF THE ITEMS SET FORTH ABOVE MUST BE SUBMITTED WITHIN TWO (2) MONTHS FROM THE DATE OF THIS NOTICE OR BY 32 MONTHS FROM THE PRIORITY DATE FOR THE APPLICATION, WHICHEVER IS LATER. FAILURE TO PROPERLY RESPOND WILL RESULT IN ABANDONMENT.

The time period set above may be extended by filing a petition and fee for extension of time under the provisions of 37 CFR 1.136(a).

Applicant is reminded that any communications to the United States Patent and Trademark Office must be mailed to the address given in the heading and include the U.S. application no. shown above (37 CFR 1.5)

*A copy of this notice **MUST** be returned with the response.*

STATEMENT OF FACTS UNDER 37 C.F.R. § 1.47(a)

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The undersigned, Valentino Villari, hereby states as follows:

1. I make this statement to provide facts known to me concerning Albert van Oijen's refusal and unavailability to sign an inventor's declaration for the above-identified patent application.

2. In December of 2002, I provided a copy of the EPO priority application as filed to Albert van Oijen.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

STATEMENT OF FACTS UNDER 37 C.F.R. § 1.47(a)

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The undersigned, Christine Davids a US citizen, hereby states as follows:

1. I am employed as a paralegal assistant in the firm Jostarndt Patentanwalts-AG of Aachen, Germany, European patent counsel for Scheuten Glasgroep BV, which holds rights in the above-identified patent application.
2. I make this statement to provide facts known to me concerning Albert van Oijen's refusal and unavailability to sign an inventor's declaration for the above-identified patent application.
3. In my capacity as a paralegal assistant, I assist Dr. Hans-Dieter Jostarndt, a patent agent with the firm in communicating with the assignee, the inventors of the application, and with U.S. patent counsel handling the application (James P. Zeller of Marshall, Gerstein & Borun LLP, Chicago).
4. I am informed that the co-inventor Valentino Villari provided a copy of the EPO priority application as filed to Albert van Oijen at the time when Mr. van Oijen was still an employee of Scheuten, in December, 2002.

5. I prepared and forwarded Dr. Jostarndt's letter dated February 24, 2005 (copy attached as Exhibit A) and a combined declaration/power of attorney document (copy attached as Exhibit B) prepared by Mr. Zeller via regular mail to Albert van Oijen at his last known address, with the request that it be reviewed and executed. The letter and documents mistakenly identified the inventor as "Albert van Oyen" and "Albert Von Oyen," respectively.

6. I telephoned Mr. van Oijen on March 8, 2005, requesting him to return the executed documents. Mr. van Oijen told me that he gave the documents to his attorney, and that he would not sign the documents as his name was incorrectly spelled. Mr. van Oijen did not identify his alleged attorney, or provide any contact information for his alleged attorney.

7. On March 8, 2005, I prepared and forwarded Dr. Jostarndt's letter (copy attached as Exhibit C) forwarding Mr. van Oijen a declaration/power of attorney document bearing his correctly-spelled name. The letter was sent to his last known address.

8. On March 21, 2005, when in Aachen, I telephoned Mr. van Oijen at his office in Germany (address unknown ; his phone number is +49 (2871) 21 00 45) and was informed by him that he will not sign any document on behalf of Scheuten Glasgroep BV.

9. On March 23, 2005, I prepared and forwarded Dr. Jostarndt's letter (copy attached as Exhibit D) to Mr. van Oijen at his last known address, informing him that in reference to the Netherlands law he is obliged to sign the declaration. The letter was sent with a receipt trace in the form of a card attached to the letter which is to be signed by the receiver and will be returned to the sender by the post office. The card was not returned. The original letter came back with a notice that the letter was not claimed, and a stamp stating "geen gehoor" ("no hearing") dated March 29 was affixed to indicate that Mr. van Oijen was informed by the Post Office that a letter from our office was deposited for him but that he did not pick it up (copy attached as Exhibit E).

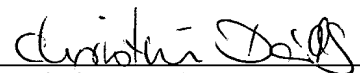

10. On April 4, 2005, I prepared and forwarded Dr. Jostarndt's letter (copy attached as Exhibit F) to Mr. van Oijen at his last known address, enclosing a copy of the above-identified international application as filed and a copy of the application as published as WO 2004/024441. The letter was sent with a receipt trace in the form of a card attached to the letter which is to be signed by the receiver and will be returned to the sender by the post office. The card was not returned. The original letter came back on May 18, 2005, with a

notice that the letter was not claimed, and a stamp stating “geen gehoor” (“no hearing”) dated April 7 was affixed to indicate that Mr. van Oijen was informed by the Post Office that a letter from our office was deposited for him but that he did not pick it up (copy attached as Exhibit G).

11. Mr. van Oijen is a former employee of Scheuten Glasgroep BV, and his last known address is De Burkel 3, NL-5851 CC Afferden, The Netherlands.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Dated: June 9, 2005
Aachen, Germany

Christine Davids

Albert van Oijen's last-known residential address is:

De Burkel 3
NL-5851 CC Afferden
The Netherlands

A check in the amount of \$260 is enclosed to cover the requisite fees established by 37 C.F.R. §1.17(h) for the petition and by § 1.16(f) for the late declaration surcharge.

"If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor." 35 U.S.C. § 116.

The facts described below show that the inventor has explicitly refused to join in the application. In addition, the inventor has also implicitly refused to join in the invention or, in the alternative, he cannot be reached. The facts show that diligent effort has been made in seeking the inventor's joinder in the application. The first invitations were answered by a blanket refusal to sign any document, and subsequent invitations were either ignored or did not reach the inventor at his last-known address.

Named Inventor van Oijen Refused to Execute the Declaration

Explicit Refusal

The facts show that named inventor Albert van Oijen explicitly refused to join in the above-identified application by refusing to execute the inventors declaration.

As described in the accompanying statements of Christine Davids and Valentino Villari, named inventor Albert van Oijen is no longer employed by Scheuten Glasgroep BV., which holds rights in the invention. Mr. van Oijen was presented with a copy of the EPO priority application and an inventors declaration for the above-identified international application claiming priority to the EPO priority application.

Mr. van Oijen first refused to sign the declaration on the basis that his name was misspelled. Accordingly, a new document was sent to him bearing the correct spelling

of his name. Subsequently, Mr. van Oijen stated that he refused to sign the declaration and any document for his former employer.

The facts show that Mr. van Oijen refused to join in the application. Accordingly, the petition should be granted on this basis.

Implicit Refusal

The facts also show that named inventor Albert van Oijen implicitly refused to join in the above-identified application.

Subsequent to his explicit refusal, additional appeals were made to Mr. van Oijen to join in the application. On March 23, 2005, a letter was sent to Mr. van Oijen informing him that, in reference to the Netherlands law, he is obliged to sign the declaration. Furthermore, on April 4, 2005, complete copies of the above-identified application as filed and as published by WIPO were sent to the inventor. The letters and documents were sent to the same last-known address for Mr. van Oijen.

On these occasions, a receipt-traceable means was used with the posting. Similar to USPS "Return Receipt" service, the letters were sent with a receipt trace in the form of a card attached to the letter which is to be signed by the receiver and will be returned to the sender by the post office. Despite that the same last-known address was used, Mr. van Oijen did not return the cards. In addition, the letters were returned with notices that they were not claimed and stamps indicating that Mr. van Oijen was informed by the Post Office that the letters were deposited for him but that he did not pick them up.

The foregoing facts show that Mr. van Oijen implicitly refused to join in the application by ignoring and refusing correspondence from counsel on behalf of the joining inventor and his former employer. Accordingly, the petition should be granted on this basis.

Named Inventor van Oijen Cannot Be Found Or Reached After Diligent Effort

If the petition is not granted on the basis of the inventor's refusal to join, then the applicants hereby petition in the alternative on the basis that the inventor cannot be found or reached after diligent effort.

As described above and in the accompanying declarations, the non-joining inventor Albert van Oijen received the inventors declaration for the above-identified application and the EPO priority application. Subsequent to his blanket refusal to sign any documents for his former employer, copies of the international application as filed and as published were sent to his last-known address by receipt-traceable means. No return postcard was received for that letter (April 4, 2005), and the letter was returned as not claimed.

Mr. van Oijen stated that he was represented by an attorney, but did not identify his alleged attorney, nor did he provide any means of contact for his alleged attorney.

Several internet searches in three different directories were also conducted in an effort to locate a new address for Mr. van Oijen. Exhibit A shows the first 25 results of a search for any last name having "oijen" in the Netherlands from the web site nationaletelefoongids.nl, which resulted in 544 hits. Exhibit B shows the first 25 results of a more restricted search for any last name having "oijen" with a first letter "a" in the Netherlands from the web site nationaletelefoongids.nl, which resulted in 141 hits. Exhibit C shows the results of another type of more restricted search, for any last name having "oijen" with a first name "albert" in the Netherlands from the web site nationaletelefoongids.nl, which resulted in zero hits. Exhibit D shows the results of a more restricted search for any last name having "oijen" in the Afferden region of the Netherlands from the web site nationaletelefoongids.nl, which resulted in four hits. Exhibit E shows the results for any last name having "oijen" in the Afferden region from the web site detelfoongids.nl, which resulted in nine hits. Exhibit F shows the results for any last name having "oijen" in the Afferden region from the web site infobel.com, which resulted in four hits. None of the foregoing searches located an address for an "Albert van Oijen" or anything reasonably similar.

The foregoing facts show that either the inventor is implicitly refusing to join in the application by ignoring and returning correspondence, or that he cannot be reached at his last-known address or the address of his alleged attorney, after diligent efforts to reach him. Accordingly, the petition should be granted on this basis in the alternative.

Conclusion

On the basis of these facts and for the foregoing reasons, it is solicited that the U.S. Patent and Trademark Office grant a patent on this application to the inventors making the application, subject to the same rights which the non-signing inventor would have had if he had joined.

Should the Petitions Officer have any question of form or substance, he or she is encouraged to contact the undersigned attorney at the telephone number and address listed below.

Respectfully submitted,

MARSHALL, GERSTEIN & BORUN LLP

Patentanmeldung in den USA basierend auf PCT/EP03/10097

Titel: "Brandschutz-Verglasungseinheit"

Anmelder: Scheuten Glasgroep BV, Dr. Valentino Villari, et al.

Sehr geehrter Herr van Oyen,

zu vorgenannter Patentanmeldung überreichen wir anliegend eine Vollmacht sowie ein Übertragungsdokument mit der Bitte, dieses von Ihnen und einem Zeugen unterschrieben an uns zurück zu reichen. Diese Unterlagen werden für die Einleitung der nationalen Phase in den USA benötigt.

Vielen Dank!

Mit freundlichen Grüßen

Dr. Hans-Dieter Jostarndt
Patentanwalt

DECLARATION FOR PATENT APPLICATION AND POWER OF ATTORNEY

As a below named inventor, I hereby declare that my residence, post office address and citizenship are as stated below next to my name; I believe that I am an original, first and joint inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled "FIREPROOF GLAZING UNIT," the specification of which was filed on September 11, 2003, as International Application Serial No. PCT/EP03/10097. I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above. I acknowledge the duty to disclose to the Patent and Trademark Office all information known to me to be material to patentability as defined in 37 C.F.R. §1.56.

I hereby claim foreign priority benefits under 35 U.S.C. §119 of any foreign application for patent or inventor's certificate or of any international application designating at least one country other than the United States of America listed below and have also identified below any foreign application for patent or inventor's certificate or any international application designating at least one country other than the United States of America filed by me on the same subject matter having a filing date before that of the application of which priority is claimed:

Priority Claimed

I hereby claim the benefit under 35 U.S.C. §119(e) of any United States provisional application listed below:

(Application Serial Number)

(Day/Month/Year Filed)

I hereby claim the benefit under 35 U.S.C. §120 of any United States application or international application designating the United States of America listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior application in the manner provided by the first paragraph of 35 U.S.C. §112, I acknowledge the duty to disclose to the Office all information known to me to be material to patentability as defined in 37 C.F.R. §1.56 which occurred between the filing date of the prior application and the national or international filing date of this application:

(Application Serial Number)

(Day/Month/Year Filed)

(Status-Patented, Pending or Abandoned)

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

POWER OF ATTORNEY: I hereby appoint as my attorneys, with full powers of substitution and revocation, to prosecute this application and all business in the Patent and Trademark Office therewith:

37 CFR 1.56. DUTY OF DISCLOSURE - INFORMATION MATERIAL TO PATENTABILITY (Applicable Portion)

(a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is canceled or withdrawn from consideration, or the application becomes abandoned. Information material to the patentability of a claim that is canceled or withdrawn from consideration need not be submitted if the information is not material to the patentability of any claim remaining under consideration in the application. There is no duty to submit information which is not material to the patentability of any existing claim. The duty to disclose all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by §§ 1.97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine:

- (1) prior art cited in search reports of a foreign patent office in a counterpart application, and
- (2) the closest information over which individuals associated with the filing or prosecution of a patent application believe any pending claim patentability defines, to make sure that any material information contained therein is disclosed to the Office.

Information relating to the following factual situations enumerated in 35 USC 102 and 103 may be considered material under 37 CFR 1.56(a).

35 U.S.C. 102. CONDITIONS FOR PATENTABILITY: NOVELTY AND LOSS OF RIGHT TO PATENT

A person shall be entitled to a patent unless --

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for patent, or
- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of the application for patent in the United States, or
- (c) he has abandoned the invention, or
- (d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months before the filing of the application in the United States, or
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraph (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent, or
- (f) he did not himself invent the subject matter sought to be patented, or
- (g) before the applicant's invention thereof the invention was made in this country by another who had not abandoned, suppressed, or concealed it. In determining priority of invention there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

35 U.S.C. 103. CONDITIONS FOR PATENTABILITY; NON-OBVIOUS SUBJECT MATTER (Applicable Portion)

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

35 U.S.C. 112. SPECIFICATION (Applicable Portion)

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same, and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Sehr geehrter Herr van Oijen,

wir kommen noch einmal zurück auf die Ihnen mit der Bitte um Unterzeichnung übersandten
Unterlagen und die mit Ihnen geführten Telefonate.

Nach Überprüfung der Sach- und Rechtslage weisen wir Sie darauf hin, dass Sie nach
niederländischem Patentrecht dazu verpflichtet sind, die Vollmacht sowie das
Übertragungsdokument zu unterschreiben und an uns zurück zu senden.

Wir weisen gleichzeitig darauf hin, dass für den Fall, dass der Firma Scheuten Glasgroep ein
Schaden aus Ihrer Verweigerungshaltung entstehen sollte, die Firma Scheuten Glasgroep die
hieraus entstehenden Schadensersatzansprüche gegen Sie geltend machen kann.

Wir sehen daher der Übersendung der von Ihnen unterzeichneten Unterlagen binnen der
nächsten 10 Tage entgegen.

Mit freundlichen Grüßen
